Get More Value with Abra SupportPlus

Protect your investment and get the most value from your software. With Abra SupportPlus, you can get product updates, discounts and value-added benefits, including expert, toll-free telephone support and 24-hour Web access to SupportPlus Online.

Payroll accuracy and efficiency are critical to individual employees, company bottom lines and government agencies. You need the control to process your payroll accurately and quickly every time. Abra Payroll is fully integrated with Abra Suite HRIS, the market leading Human Resources system, so you enter data just once and instantly share it with the entire system for maximum efficiency. Benefits administration and attendance plan management are automatically integrated with payroll processing.

Powerful tax compliance reporting and analysis, excellent tracking of employee hours and accrual balances, maximum security and a variety of check disbursing options give you both control and flexibility for your company's individual structure and needs.

In addition to a comprehensive, highly flexible list of features, Abra Payroll provides tools for strategic planning and handling of critical tasks. You can easily generate cost accounting and labor distribution reports, determine payroll allocations and satisfy government filing requirements with built-in standard reports and forms. Abra Payroll includes convenience features such as guided setup interviews for establishing tax, earnings, and deduction parameters, one-step single check calculation and printing, gross-up calculation and customized checks — while multi-level security protects confidential payroll data from unwanted access.

See reverse side for list of features

FEATURES

Paychecks on Demand	Easily and instantly void and re-issue single off-cycle checks and update the appropriate accounts, including employee earnings, deductions, tax withholdings, and employer tax liability.
Built-In Direct Deposit Processing	Now you can deposit employee pay to an unlimited number of banks under NACHA standards with the click of your mouse.
Multi-tiered Time Entry Processing	You can enter time for multiple companies, pay groups, and employees during the same session to accommodate work situations not based on a standard weekly or biweekly pay period. For added flexibility, you can view the cumulative total of hours as time is entered for each employee and track available year-to-date vacation, personal, and illness accrual balances while inputting employee time.
Gross Up Calculation	You can automatically calculate gross pay by entering a base net pay during the time entry process.
Real Time Changes	Abra Payroll lets you change an employee's calculated voluntary deductions or tax withholding prior to check processing, saving you time and money.
Immediate Access to Critical Information	Reconcile payrolls and quarter-ends with up-to-the-minute facts and instant analysis that include a gross-to-net, 941 audit, and an employer tax liability.
More than 100 Standard Reports	Check on such information as payroll deposit requirements, workers' compensation costs and unemployment and disability wages. You can view a report on the screen, as a printout or as a file that you can export to use in other software applications such as Microsoft Excel.
Built-In Report Writer	Create unlimited custom reports to meet needs unique to your organization.
ACH Credit and ACH Debit Filing Methods	Abra Payroll filing methods let you comply with IRS filing requirements for the Electronic Federal Tax Payment System.
Tax Compliance	Abra Payroll maintains and supports Federal, state and more than 4000 local taxes.
Built-In Government Forms	Complete necessary paperwork with forms such as W-2, 1099-MISC and 1099-R, W-3, 941 and 943 preprinted forms, and unemployment tax reports.
Multiple Check Printing Options	Customize your own payment forms for check and earnings statements and direct deposit advices by incorporating company logos, subsidiary names and other data. You can print on several types of check or direct deposit stock in a variety of check formatting options.
Laser Check Cutting	Cut printing costs with Laser Check MICR for MICR-encoding on blank check stock. Provide automatic signature printing with convenient laser check signature.
Multi-level Security	Protect key information with sophisticated multi-level security. You can create and assign an unlimited number of user IDs and passwords. Easy-to-follow audit trails help you to identify who made each change by date, time and type.
Integrated Tax Filing Service	Tax liability summary files are created by Abra, then it can be filed through Best Tax Filing Service.
